2021 NATIONAL ANGLING SECTIONS REPORT TO FSSAA AGM

Well what a year 2020 was. All our events from the start of the year were cancelled with hopes of running some by the end of the year quickly dashed as the 'pandemic' unfolded.

I did however try to re-introduce our website with a company called 'Go Daddy', no doubt you would have seen their adverts on TV. This allows me to update the website and not rely on somebody to do it.

Other than that we just relied on memories of National Competitions past.

On to 2021.

The committee have been busy as soon as the restrictions allowed competitions then we started to contact the Fisheries that we had booked for the 2020 National competitions. So we have a National calendar for 2021 that is only 2 competitions down, they being the Northern Ireland Coarse National and Pike National. We are hoping that we can still run the Pike National as it is usually in November but Northern Ireland is the last week in April although I am well on the way to organising next year's Northern Ireland Competition.

The Coarse National is at Lindeholm Fishery, Doncaster on July 7th with the Game National 14th September at Grafham Water, Carp National 5th to 7th October at Walthamstow Reservoir and the Sea National hosted by Tyne and Wear 10th to 14th October.

We are applying for a grant of £1600. This will cover costs for 2020, which were very small but we did still have some and 2021 as we start to hold our National competitions. We will also have to carry some money over for the beginning of 2022 as we start booking venues and events as some venues require deposits. I have attached our accounts for 2020 as well as accounts for 2019.

Sorry I cannot be there but a river awaits a fool at one end and a fish at the other!

Regards

David Rees
Secretary
FSSAA National Angling Section.
