2022 NATIONAL ANGLING SECTIONS REPORT TO FSSAA AGM

Well, what a year 2021 was. We could go fishing then we couldn't go, lucky for the angling fraternity our representative body, the Angling Trust lobbied the government and was successful in them granting us to partake in our sport with restrictions. About the only sport that was allowed to.

We did manage to run 3 National competitions they being the Coarse National, Carp National and Sea National. Although numbers were down on previous, and we did make a loss on the events we thought it important to hold the events.

On to 2022.

We are looking to run a full program of National Competitions this year. The Coarse and Game Nationals are already booked and just being finalised, we are arranging the Northern Ireland event and are making headway on the Pike and Sa Nationals. So a busy year ahead, hopefully.

We are applying for a grant of £1600. This will cover costs for 2021 and at present, we have been informed that some deposits for events may be incurred. We already have had to pay a small deposit to secure and r Section for the Northern Ireland National. We also need to update our perpetual trophies.

I have attached d our accounts for 2021 as well as accounts.

Regards

David Rees
Secretary
FSSAA National Angling Section.
