

FIRE SPORT UK Bowls Section narrative report for 2021 AGM

2019

The 4 Nations Was held by the Northern Ireland Section in Belfast at Belmont Bowling Club. Scotland coming out on top.

Medals presented for all competition winners at the presentation Dinner.

We played as The UK team against a Northern Ireland Police teams with the Uk coming out on top for a change. This Game played on the day before our own championships and allows for all countries to combine.

This was decided at the AGM that to arrange a match on the day before our championships as some countries get in early on the Friday and this gives a chance to have a game.

2020

4 Nations was to be held in Wales but with everything with covid 19. This was duly cancelled.

2021

We again where going to Wales but the Welsh again cancelled.

So Northern Ireland and Scotland have Decided to hold a championship in Scotland with invites going out to the other nations to supply team members. The Scottish Section is large so they can supply plenty of opposition with the majority of the UK team coming from Northern Ireland, with England and Wales intending to send some support. All going to Edinburgh maybe an odd beer being consumed.

The Bowling in general, throughout the UK is slowly getting back to what ever the new normal is going to be.

2022

We will again try to get the 4 Nations played in Wales all vaccinated and raring to go. The 4 nations revolves from country to country. Wales next year, England, Scotland and Northern Ireland.

Be sure your grant is well used and we invite your committee to attend when its in your neck of the wood. If you can pass on that all countries could use new members experienced or novice they will be welcomed with open arms. It's not a game for oldies it just looks that way. Come and have a go if you think it's easy.

2023

Normality Hopefully.
